

**"Maverick Priest by Father Harry Bury**, who lives up to the title of his remarkable and honest autobiography, offers us a deep and profound insight into the good intentions and flaws of "the church" and of ourselves. He bares his soul in his writing as he gives us a glimpse into the minds and hearts of religious and secular leaders—including Mother Teresa, who was a special friend and inspiration to him.

"His commitment and dedication to helping the people of Vietnam is commendable as is his commitment for us to understand the unjustified atrocities eventuated by wars.

"A major theme of Bury's book is we must stop using war as a means of international policy and make every effort to build bridges of understanding between countries—and each other. He emphasizes this can only happen if we are willing to put major efforts into understanding ourselves as individuals in order to better understand others. His book will inspire you to open your mind and heart to the most important three words in all literature: *God is Love.*"

~ **Paddy S. Welles, Ph.D.**, co-author of *LOVE AND WAR: Human Nature in Crisis*

"This book is an extraordinary gift to those who are grappling with challenges and complexities of being authentically human and non-violently active at the dark edges of our evolving world.

"Harry Bury's wisdom and courageous pursuits give deep meaning and inspiration for living on the frontiers of war and human struggle.

"Harry is a most interesting person, and his book is no less intriguing. A must read!"
